Foreword

The release of Seventh Report on All India Survey on Higher Education (AISHE) for the year 2016-17 will provide a wealth of extensive data on the higher education sector and provide decision makers and stakeholders with an opportunity to make informed decisions and plans. The Report will bring about a better understanding of the present scenario in the Higher Education system in the country. It will also provide useful information for Government to plan the future investment in the field. I am confident that the AISHE document would be greatly helpful in planning the future of education system.

A new feature of this survey is collection of detailed information about teachers for the first time to create a teacher information portal 'Gurujan'. With making Aadhar number of teachers mandatory, it is expected that authentic information would be available about teachers avoiding thereby and eliminating any chance of same teacher being reported as working in multiple institutions.

I extend my heartfelt congratulations to the Institutions of Higher Education, the Regulatory Bodies and the State Governments for their enthusiastic participation in this Survey.

Officials of the Statistics Division of the Department of Higher Education and National Informatics Centre involved in preparation of this report deserve appreciation for this good work. Any suggestions for its improvement in the future will be appreciated.

Preface

The Report of the All India Survey on Higher Education (AISHE) identifies and captures various facets of institutions of Higher Education in the country. The key idea behind this Survey and the resulting documents is to prepare a sound database on the largely diverse system of Higher Education in the country. There is an inbuilt mechanism in the Survey to compile and manage the data submitted directly online by the respondent institutions. The report brings out the official statistics on a large number of parameters based on data received from the Universities, Colleges and Stand Alone Institutions in Higher Education in the country.

The Survey is a step towards gathering relevant statistics that could facilitate Central and States Governments in devising future policies. AISHE 2016-17 being the 7th round of the annual survey since its beginning to collect the data for the year 2010-11, improvement both in terms of response and in the quality of data has been observed. During 2016-17, 795 Universities, 34193 Colleges and 7496 Stand Alone Institutions have uploaded the data in the prescribed Data Capture Formats on the web portal specially designed by the National Informatics Centre.

I extend my gratitude to Sh. R. Subramanyam, Special Secretary, who guided the Statistic Division and constantly interacted with State level senior officers, which resulted into timely collection of data. I am indeed grateful to all the respondent Institutions, especially Universities that have played a key role in providing data as well as in facilitating data uploading from colleges, which are academically associated with them. I am also thankful for their support to the Regulatory Authorities - University Grants Commission, All India Council of Technical Education, Medical Council of India, Indian Nursing Council, Indian Council of Agricultural Research etc. and the State Governments. Their active participation in the Survey, right from facilitating the preparatory work to sensitizing respondents to the collection of statistics, is appreciated. A work of this nature would not have been possible without the formidable technical support from the NIC, which has dedicated several teams of experts for looking after the technical aspects of the Survey.

CHAPTER I – INTRODUCTION

All India Survey on Higher Education (AISHE) was initiated in 2011 during which data for the year 2010-11 was collected. The survey was utmost necessary as none of the source of data on Higher education was giving complete picture of higher education in the country. For the first time all the major Stakeholders in Higher Education such as University Grants Commissions, All India Council for Technical Education, Medical Council of India as well as State Governments participated in the data collection exercise. The entire survey was conducted through electronic mode and a dedicated portal *http://aishe.gov.in* was developed for the purpose, thus making the exercise completely paperless. The survey intended to cover all the Institutions in the country engaged in imparting the higher education. Data is being collected on several parameters such as teachers, student enrolment, programmes, examination results, education finance, infrastructure etc. Indicators of educational development such as Institution Density, Gross Enrolment Ratio, Pupil Teacher Ratio, Gender Parity Index etc. are calculated from the data collected through AISHE. These are useful in making informed policy decisions and research for development of education sector. The survey is being conducted on annual basis.

1.1 Steering Committee and Working Group: The XII Plan categorically highlighted the need for a strong current and comprehensive data for evidence-based policy making and effective planning. The Plan document also took note of the All India Survey on Higher Education initiated by the Ministry of Human Resource Development and indicated that it can provide useful insights and can be the first step towards creating a comprehensive higher education data management system. Keeping this in view, a new plan scheme Higher Education Statistics and Public Information System (HESPIS) has been approved in XII Five Year Plan. With a view to ensure coordinated approach to all these efforts, particularly data collection efforts and benefit from synergy in such efforts, a Steering Committee for Higher Education Statistics and Public Information System has also been constituted under the chairmanship of Secretary (Higher Education), MHRD and different stake-holders as members. The notification on constitution of the **Steering Committee** and its Terms of Reference is given at Annexure-1.

1.2 Identification of Institutions for Coverage–The Institutions have been classified in following 3 broad categories

- **University and University Level Institutions** i.e. the Institutions which are empowered to award degree under some Act of Parliament or State Legislature.

- **Colleges/Institutions** which are not empowered to provide degree in its own name and therefore are affiliated/recognised with Universities.

- **Stand-alone Institutions** (not affiliated with Universities) which are not empowered to provide degree and therefore run Diploma Level Programmes. During the survey, following 5 types of such Institutions have been covered.

1. Technical such as Polytechnics
2. Post Graduate Diploma in Management recognized by AICTE
3. Teacher Training such as District Institute of Education and Training recognized by National Council for Teacher Education
4. Nursing Institutes recognized by Indian Nursing Council/State Nursing Council and
5. Institutes directly under the control of various Central Ministries.

1.3   Reference Period for AISHE 2016-17. Reference date for filling up the Data Capture Formats was 30th September 2016. The number of institutions, teachers and students has been recorded on the basis of their actual number as on 30th September 2016. Information in respect of Examination Result has been collected for the students passed out/awarded degree on or before 30th September, 2016 for the previous academic year. Financial Information has been recorded for the previous financial year i.e. 1st April, 2015 to 31st March, 2016.

1.4   Formulation of Concepts and Definition and Instruction Manual: All the terms generally used in higher education such as University, college, programmes, discipline, faculty, department have been clearly defined in the instruction manual, which also includes item-wise instructions to fill the forms. Concepts and Definitions used in the survey are given at Annexure 2.

1.5   List of Higher Education Institutions: Earlier lists of all the Universities and Stand-alone Institutions have been prepared by adopting the following method:
- Consulting the websites of the State Government Departments, Ministries and Institutions.
- Consulting all the Central Ministries, Councils and State Governments for providing the list of Institutions under their control.

Different colleges are regulated with different regulatory bodies. There are some colleges whose programmes are recognised by more than one regulatory body. To avoid duplication or omission, University was identified as best source to prepare the list of colleges.

In addition, the following mechanism was also adopted to update the list of institutions for 2015-16.

- List of Universities through State Governments, Central Ministries, UGC and self-disclosure by the Universities, which is to be verified by the Act of the University.
- List of Colleges through Universities
- List of Stand Alone Institutions through respective Councils, State Governments and Central Ministries

An online module has been developed to update the list of institutions. Apart from addition and deletion, module has been developed to affiliate and de-affiliate colleges which maintain the identity of the college even after shifting from one University to other. A provision has also been made for those colleges which are upgraded to University so that there is always a backward linkage.

1.6   Partner Agencies – Statistics Division of MHRD is primarily responsible for formulation and design of the survey, which includes preparation of DCF, providing training to nodal officers in workshops, engagement with National Informatics Centre (NIC) in software development etc. The software support was provided by NIC. Several regulatory authorities such as UGC, AICTE, MCI, etc. also took part by instructing their institutions for providing information in the survey.

Nodal officers in each State are expected to coordinate the survey work. Most of the States have nominated Higher/ Technical Education department as Nodal department/ agency for coordinating the Survey. Along with State nodal officers, 3 more nodal officers, one each from Directorate of Technical Education (for Polytechnics), SCERT (for DIETs and Teacher Training diploma level institutions) and State Nursing Council have also been designated to co-ordinate with Standalone Institutions. The names of these State Nodal officers and University Nodal Officers (Affiliating) are shown at Annexure-3 and Annexure-4 respectively.

1.7   Mode of Survey - A dedicated portal (http://aishe.gov.in) has been developed with the help of National Informatics Centre (NIC) for collection and compilation of the data. All the Institutions need to register on the portal for accessing the portal and uploading its data. The registrations of the Institutions are approved by appropriate

level of officers at State/ Central Level and in case of colleges, by University nodal Officers. The e-version of DCF has been prepared in such a manner that it expands according to the structure/size (Number of Faculties/ Departments, Programmes, etc.) of the Institution. The Data Capture Format is downloaded from the portal, filled off-line and then filled-in DCF is uploaded, which has made it completely paper-less. DCF has been designed in such a manner that no manual aggregation is required at any level. No investigator is sent to the Institution to collect the data. In fact the nodal officers appointed by the Institutions themselves are the Investigator and they are responsible for filling up the DCF and uploading it on the portal. This eliminates the duplication of effort in data entry once form is uploaded by the Institution. Once data is uploaded by the Institutions, data compilation is done automatically in pre-designed formats. Filled-in DCFs are available on the portal, which can be seen by the Institutions and higher level authorities and can be modified, if required, till survey is open.

1.8   Duration of the Survey AISHE 2016-17: The survey started in the month of December 2016, and continued till 15th, September 2017. One of its special features is that data, such as basic details, name of faculties/departments and list of programmes can be pre-filled in future survey DCF from the previously filled-in DCF with an option to edit pre-filled data.

1.9   Institutions Uploaded Data under Survey: In AISHE 2016-17, 795 Universities, 34,193 Colleges and 7,496 Stand Alone Institution have uploaded the form on the portal. However, in addition to the actual response received during AISHE 2016-17, data has been pooled from the AISHE 2015-16 and 2014-15 for the institutions which existed in 2016-17 but could not upload the data. So by pooling the results are actually based on response from a larger number of institutions than the actual response of 2016-17 survey which can be seen from the following Table.

	University	Colleges	Standalone
Listed for AISHE 2016-17	864	40026	11669
Response in AISHE 2016-17	795 (92.01%)	34193 (85.42%)	7496 (64.2%)

List of Universities, which did not upload the data during 2015-16 is also shown at Annexure 5.

2. 1.3 Stand Alone Institutions

Stand Alone Institutions are categorised into 5 categories as described below:

Type I- Diploma Level Technical Institutes such as Polytechnics, which are generally recognised by All India Council for Technical Education (AICTE) and administered by State Directorate of Technical Education.

Type II- Diploma Level Teacher Training Institutes including District Institute of Education and Training (DIETs) recognised by National Council for Teacher Education (NCTE) and generally administered by State Council for Education Research and Training (SCERT).

Type III- Diploma Level Nursing Institutes recognised by Indian Nursing Council (INC) and generally administered by State Nursing Council/Boards.

Type IV- PGDM (Post Graduate Diploma in Management) Institutes recognised by AICTE

Type V- Institutes directly under the control of various Central Ministries

Number of institutions varied widely across the States including their degree of response. Out of 11669 Stand Alone Institutions, 8453 (including pooled data from 2015-16 and 2014-15) have uploaded the data during 2016-17 survey. Type wise details are as under

In Gujarat and Chhattisgarh polytechnics have been affiliated with the University and therefore they have not been counted as Stand-Alone Institutions. The Polytechnics in these 2 States have been included in the Colleges. Stand Alone Institutions are mainly run by Private sector (76%); Private unaided – 66% and Private aided – 10%. Out of the total enrolment of 3,57,05,905 students, a vast majority of 2,83,48,197 students are enrolled in Under Graduate that is a sweeping 79.4%. On the other hand, second to Under Graduate, 11.2% students are enrolled in Post Graduation which is approximately 40.0 lakh students. There are 3,538 students enrolled in Integrated Ph.D. in addition to 1,41,037 students enrolled at Ph.D. Level. The student enrolment from UG going higher to PG is thus decreasing steeply. There is a small share of 7.3% students enrolled at Diploma level in India that amounts to around 26.1 lakh students and out of this majority of students are enrolled in Teacher Training, Nursing and Technical streams. However, a small share of 1.6 lakh and 2.15 lakh students are enrolled each at Certificate and PG Diploma levels respectively, constituting approx. 0.5% and 0.6% of the total share at each level. Ph.D., M.Phil. and Integrated levels also have less than 0.5% student enrolment at each level. In terms of state-share of enrolment Maharashtra tops in the enrolment of students in Universities (including constituent units) with 9,40,480. furnishing information of individual teachers in TIF. Out of which more than half about 59.4% are male teachers and 40.6% are female teachers. The lowest gender proportion is recorded in Bihar where female to male teachers' ratio is 1:4 which is in percentage terms 75.3% for male and only 24.7%

major States, the leading 3 are Telangana with 10.8% SCs and 3.6% STs, Andhra Pradesh with 13.6% SCs and 1.6% STs and Maharashtra with 11% SCs and 1.4% STs.

As mentioned above, another significant representation in terms of gender distribution is the number of female teachers per 100 male teachers. At the all-India level there are 68 female teachers per 100 male teachers. Similarly, in SC category the female teacher is 53 per 100 male teacher and in case of ST and OBC, it is 65 and 64 females per 100 males respectively. For Muslim minorities, it is 53 female teachers per 100 male whereas for other minorities, there are 142 females per 100 male. However, it is to be noted that female representation in teachers belonging to Persons with Disabilities (PWD) category is low, that is 43 females per 100 male teachers.

Among various levels of posts, majority of teachers are of the level of Assistant Professor, followed by Associate Professor. The distribution is shown in Figure 23 and the number of female teachers per 100 male teachers at various levels of post is shown

Figure 23: Teachers: Post-wise Distribution

Figure 24: Teachers: Post-wise Gender Distribution
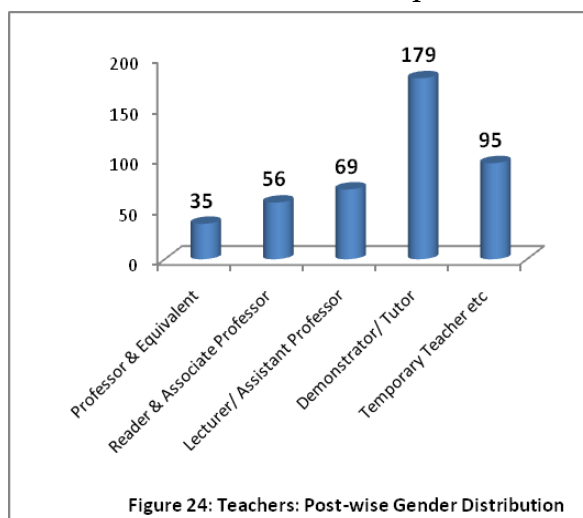

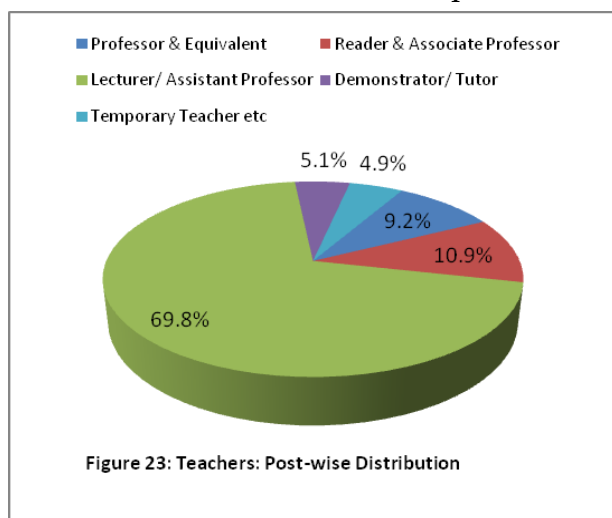

in Figure 24. The state-wise number of teacher at various levels are given in Table 22. The higher the post, lower representation of female is clearly seen from the Figure 24. There are 11,951 Visiting teachers also; among them 56.1% are male.

The number of total teachers at University level is around 1.58 lakh out of which 64.9% are males and 35.1% are females. At college level, the number of teachers is 10.55 lakh with 58.6% of male teachers. In Standalone institutes, total number of teachers is 1.52 lakh with 59.5% male teachers. Looking at female per 100 male teachers, there are 54teachers at University level, 71 and 68 female teachers per 100 male teachers at college and Stand Alone Institutions respectively.

In different types of Stand Alone Institutions, the number of female teachers per 100 male teachers is varying significantly as there are only 45 female teachers per 100 male teachers in Technical/ Polytechnic Institutions, 66 in Teacher Training, 61 in PGDM Institutions and 19 in Institutions under Ministries which is the lowest. Contrast to this, nursing courses has 358 female teachers per 100 male teachers which is the highest among all the types.

2.4.1 Pupil Teacher Ratio

Figure 26: Female per 100 Male Teaches in Standalone Institutions
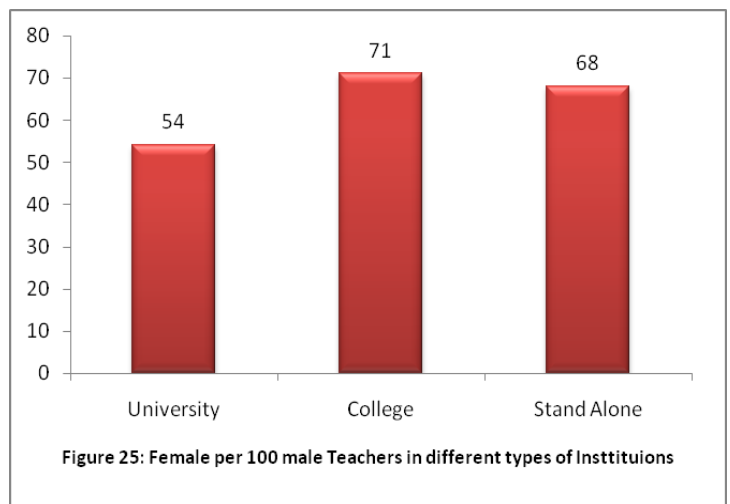

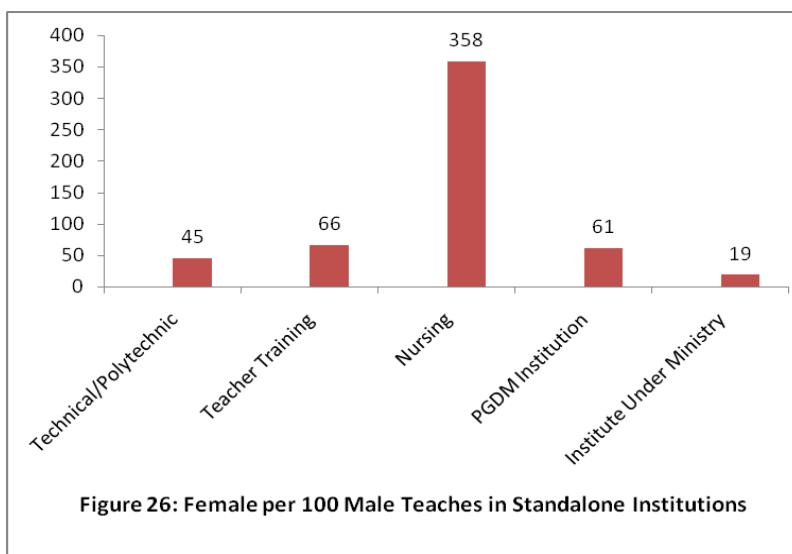

Taking into account all types of Institutions (University, Colleges and Stand-Alone Institution), Pupil Teacher Ratio (PTR) at All India level comes out to be 26 and 23 if only regular enrolment is considered. In case of University and its Colleges, PTR is 22 for regular mode. It has been observed that, PTR in University along with its Constituent Unit is significantly low at 19 in case of Regular Mode, which is a good indicator looking at the State-wise variation, it is seen that there are large variations among the States. PTR is more than 50 in Bihar, Delhi and Jharkhand. Among top 6 States in terms of Enrolment, Uttar Pradesh has the highest PTR 41 followed by Maharashtra 22 in terms of regular mode in all institutions. State-wise details of PTR are given in Table 25.

Pupil Teacher Ratio (PTR) in Universities and Colleges is 22

2.5. NON-TEACHING STAFF

The non-teaching posts in responding Institutions are 11,58,982 and are divided into four groups – A, B, C and D. The share of Group-C is the highest with 39.3%, while Group-D seconds it with 28.5%. Group-A and Group-B comprise of 14.7% and 17.4% non-teaching posts respectively (Figure 27).

Figure 27: Distribution of Non-Teaching Staff according to Levels
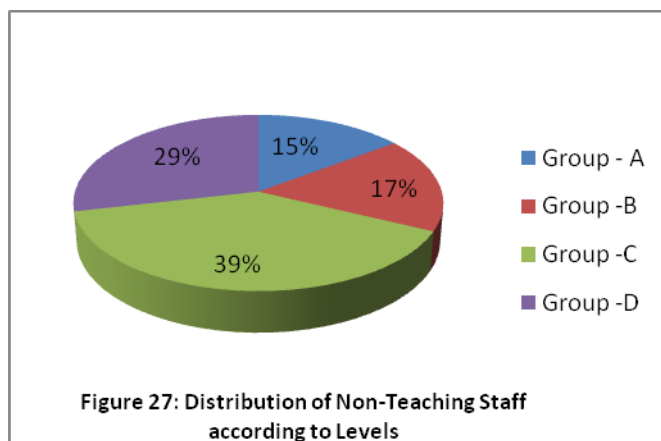

Looking at the male and female distribution in these non-teaching posts as in Figure 28, here we have a picture similar to that of teaching staff and student enrolment in India as the total male non-teaching staff is more than female staff, which is 69.4% as opposed to merely 30.6% female staff.

Figure 28: Level wise Gender Distribution of Non-Teaching Staff
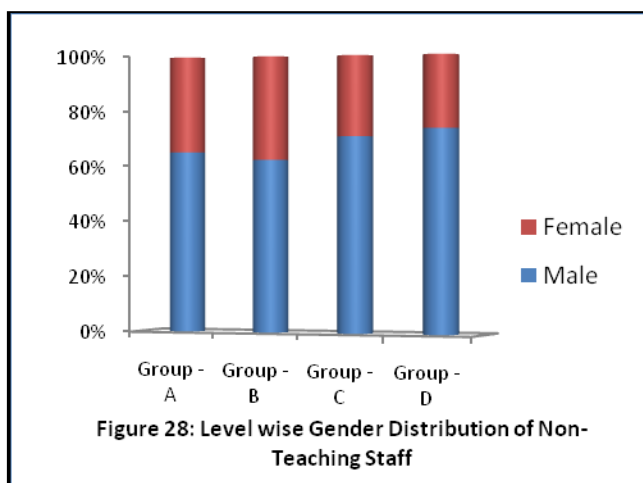

In group-wise posts, the non-teaching staffs have more male members in each group as shown in Figure 28. There are 65.3% male and 34.7% female in Group A, while in Group B, 62.5% are male staff members and 37.5% female staff members. In Group D the highest male share is 73.7% as against 26.3% females, while in Group C there are 70.9% male staff.

In Bihar the male staff share is the highest with 86% and only 14% females, while Assam and West Bengal also have a higher share of male staff with 81% and 19% females. Uttar Pradesh, Rajasthan and Odisha come third in this ratio share with 79% male and 21% female staff. This same picture is reflected in the group-wise break up of data. State-wise number of non-teaching staff in different groups in responding Institutions is given in Table 23.

Figure 29: Category-wise Distribution of Non-Teaching Staff

Figure 30: Female per 100 Male among Non-Teaching staff in various categories

In regard to Social Category, 56.2% non-teaching staffs are from General Category, 26.2% are from OBC, 13.7% from Scheduled Caste and 3.9% are from Scheduled Tribe. State-wise number of non-teaching staff in different categories given in Table 24.

The average number of females per 100 male non-teaching staff is approximately 44. The highest number of females per 100 male non-teaching staff is 74 from Other Minority Group and Muslims has the lowest number of females per 100 male non-teaching staff with 33 females. SC has 49, ST has 48, OBC has 43 and PWD has 40 as compared to 44 General category females, per 100 male non teaching staff.

2.9 ENROLMENT IN PROFESSIONAL COURSES

Professional education is defined as higher educational programmes that are designed for learners to acquire the knowledge, skills and competencies specific for a particular occupation or grade or class of occupations or trades. Exhaustive lists of Fields of Education are listed in Indian Standard Classification of Education (InSCED) published by the Ministry, which are categorized on the basis of academic and professional orientation. Management wise distribution of enrolment into academic and professional education at Post Graduate and Under Graduate levels are shown in the statement below. Enrolment in courses at integrated level have also been included at appropriate levels and is not considered separately.

Figure B: Distribution of Enrolment at PG Level
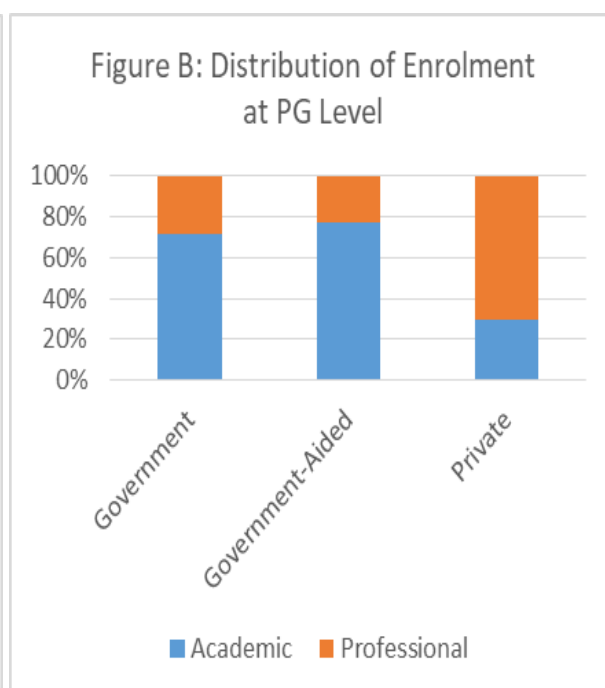

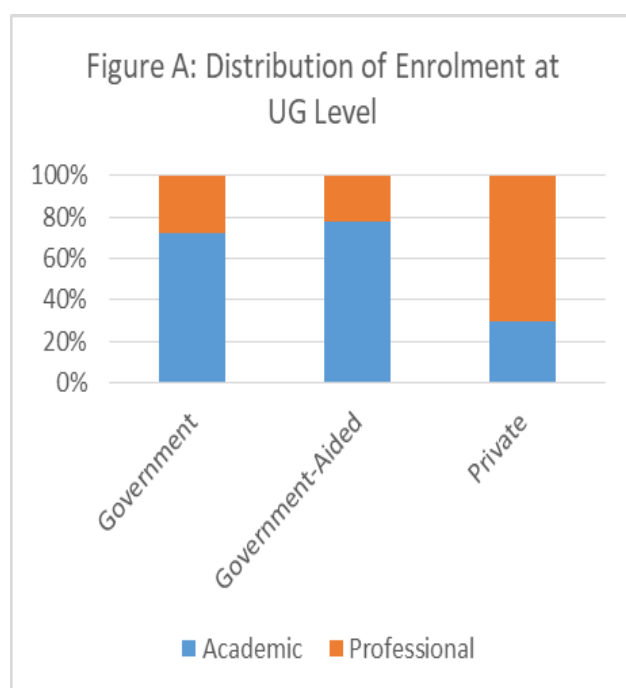

Enrolment in Professional courses is more in Private Institutions than in Government both at Under Graduate and Post Graduate levels. At Post Graduate level, the share of enrolment in Professional courses is higher than at Under Graduate level; in Private Institutions the share is much higher as shown below in the two charts.
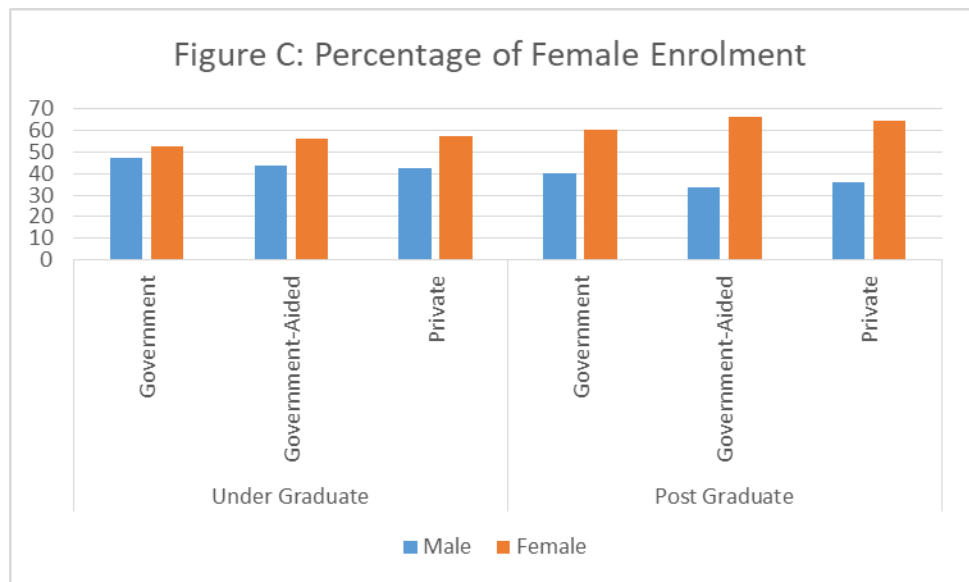

Figure C: Percentage of Female Enrolment

Female participation in professional courses is lower in comparison to academic courses at both Under Graduate and Post Graduate levels. The gap is higher in enrolment in professional courses in Private Institutions.

CHAPTER 3 – ESTIMATION METHODOLOGY

Three Categories of Higher Educational Institutions, namely University, College, Stand-Alone Institution are identified and surveyed. Since there is large variation in terms of structure, programme, student enrolment etc., among universities and data from 96.6% of these have been collected, no estimation has been done in case of University. List of Stand-Alone Institutions as already indicated is not firm and States are revising it frequently. Keeping this in view no estimation has been done for such Institutions also. Estimation has been done only in case of Colleges for student Enrolment and Teachers at All India level and state level by adopting sampling technique assuring the sufficiency of sample in different stratum. For student enrolment estimation, level of programme has been used a stratum while in case of teaching staff post has been used as stratum. Methodology for estimation has been described in subsequent sections.

The most important and phenomenal task for the survey is to compile the list of Colleges. There are numerous players in this field, which were not easily identifiable. An exhaustive list of colleges in the country was not available and therefore university was identified as best source to prepare the list of colleges. Thus, College list was dynamically generated through University during 2010-11. Software was designed in such a manner that as soon as the university uploads its form on the server, college list was automatically populated in the data-base. All the affiliating University except the 7 have uploaded the data in year 2010-2011 and therefore almost complete list of colleges were available. During 2011-12 and onwards all the remaining affiliating Universities were also contacted and comprehensive list of colleges are prepared through Institution Management Module of the portal. Presently, in order to update the college list, request for addition of colleges (new/remaining) is received from the concerned officer and added in AISHE college list based on approval of UNO/SNO.

College means any Institution, whether known as such or by any other name which provides for a course of study for obtaining any qualification from a university and which, in accordance with the rules and regulations of such university, is recognised as competent to provide for such course of study and present students undergoing such course of study for the examination for the award of such qualification. These are the institutions established or maintained by or admitted to the privileges of the University.

Colleges are generally of two types:
  (i)   University/Constituent College maintained by the University
  (ii) Affiliated College

In addition to the Affiliated and Constituent colleges, for Off-Campus Centres/ PG Centres and for Recognised Centres of Universities, DCF-II (the format in which the data was required to be submitted) was available to be filled-in. All the Constituent Colleges, the Affiliated Colleges and the Off-Campus Centres were required to fill DCF-II. Constituent units of University, primarily of Private and Deemed Universities, which are integral part of University, have also been listed by these Universities as Constituent College. However, DCF-II for such units were not required to be filled. For Recognised Centres, in normal cases, DCF-II have not been filled, but in a few cases where these are independent institutions, DCF-II have been filled.

> A Off-Campus Centre/ PG Centre is a centre of the University established by it, outside the main campus (within or outside the state) operated and maintained as its constituent unit, having the University's compliment of facilities, faculty and staff. A Recognised Centre is an institution attached with the University for the purpose of awarding degree in respect of programmes being run in these institutions. e.g. Army Cadet College Wing, Indian Military Academy, Dehradun is not affiliated with any University but the degree in respect of Programmes run in the institute are awarded by Jawaharlal Nehru University.

Thus, there are four types of College/Institution, for which DCF-II have been filled:

1.   *Affiliated College (38929)*
2.   *Constituent College (1580)*
3.   *PG and off. Campus Centre (250)*
4.   *Recognised Centre (1563)*

In bracket, numbers of such institutions during AISHE 2016-17 are given. State-wise number of colleges of different types is given in Table 37.

Although intended to cover the entire population, approximately 92% colleges' data could be collected and thus to have an idea of total College's enrolment and number of Teachers, estimation adopting proper sampling methodology, was required. Constituent Colleges are mainly located in Bihar, Jharkhand and Maharashtra and most of them have uploaded the data. Therefore, enrolment and teachers for Constituent Colleges including constituent units of University has not been estimated   For PG/Off-Campus Centres and for Recognised Centres also no estimation has been made.

Thus for only affiliated colleges, enrolment and number of teachers has been estimated based on the Stratified Sampling technique. Post-Stratification has been done, after the survey for the year 2016-17 is closed.

Affiliated Colleges have been divided into two strata; one is Large College and other Small college. Large Colleges are those, which have enrolment of 3000 or more and the

remaining are Small colleges. In absence of a priori information, it has been assumed that all large colleges have uploaded the data i.e. in the population the number of large colleges is equal to the number of such colleges that have uploaded DCF-II. Thus, we have avoided over estimation of enrolment of colleges. Average enrolment at a particular Level for the colleges of a particular University has been taken to estimate the enrolment of all colleges of that University. The Estimation formula is given at Annexure-6.

This year being good response from colleges across all states except state of Bihar and Telangana, based on the above explained methodology enrolment in colleges of these sheets has been done only for Under Graduate and Post Graduate level, given in Table 10. Actual enrolments in case of Colleges are shown in Table 8.

CHAPTER 4- TIME SERIES DATA ANALYSIS

4.1 Growth in Number of Higher Educational Institutions

The number of universities and similar institutions listed on AISHE portal has increased from 621 in 2011-12 to 864 in 2016-17 by almost 25.7% as shown in the figure37. Whereas the number of colleges has increased from 34,852 in 2011-12 to 40,026 in 2016-17 by about 13% as shown in the figure 38.

Figure 37. Number of Universities

Figure 38. Number of College
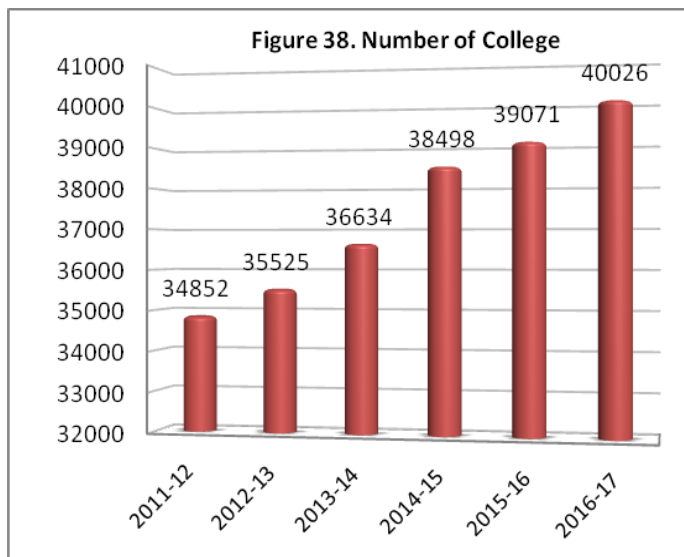

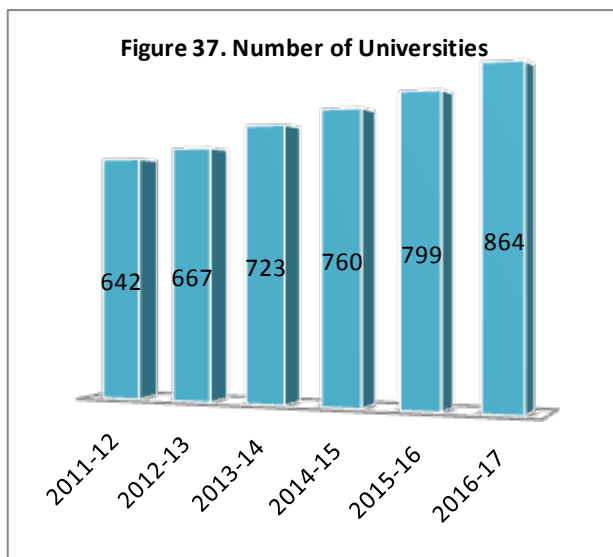

Evidently, the increase in State Private and State Public Universities are very high as shown below in table and depicted in figure 39 too.

In several states such as Gujarat, Haryana, Karnataka, Madhya Pradesh, Rajasthan, Uttar Pradesh and West Bengal large number of Universities have come up during the period. However in Andhra Pradesh, Bihar, Delhi, Maharashtra, J&K and Telangana and Himachal Pradesh very few Universities have started as shown in figure 40.

Figure 40. Number of Universities in Major States
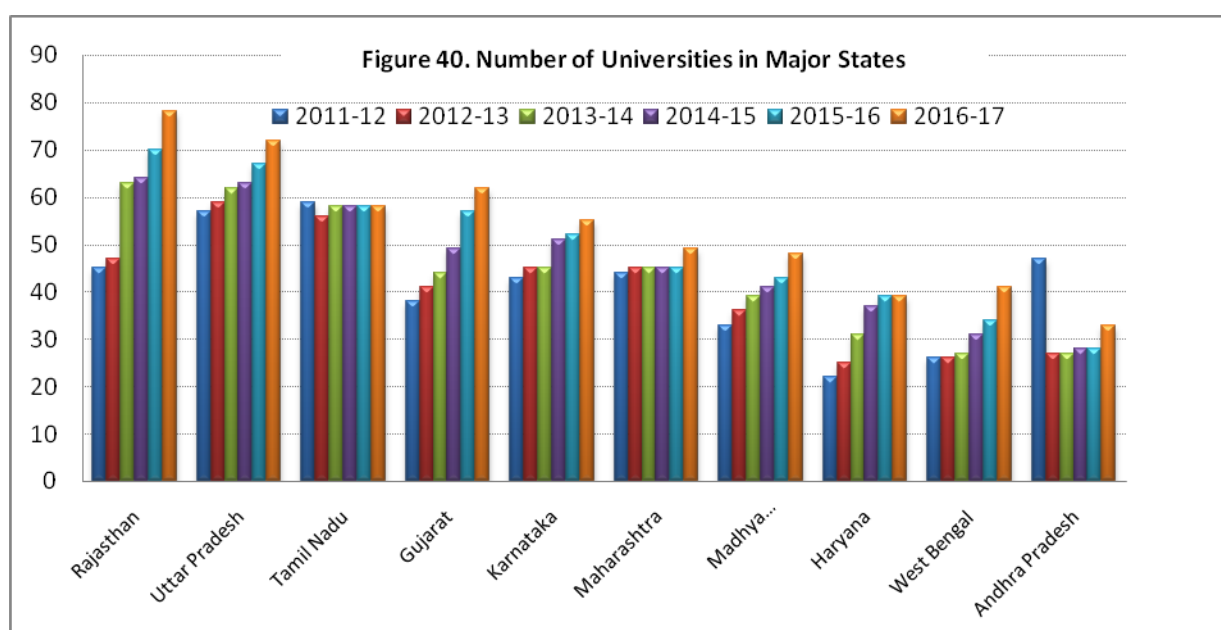

State-wise number of Universities during the last 7 years is shown in Table 40 and by type of University in Table 41. The number of colleges has increased in almost all the States.

However, college density i.e. the number of college per lakh eligible population (age-group 18-23 years) has not increased significantly; neither the average enrolment per college has increased significantly in most of the States. The time series, state-wise, data

on these 3 indicators are given in Table 42.College Density in major States and Average Enrolment per College in major states are shown in the figures 41 and 42 below.

comparison to male enrolment. Per 100 male students, number of female students has increased from 81 in 2012-13 to 88 in 2016-17. Gender-wise enrolment is depicted in the figure 44.

In Table 45 State-wise Category-wise Student Enrolment during last 6 years is given and in Table 46 State-wise Enrolment during last 5 years for Muslim, Other Minority and PWD is shown. Enrolment of Muslim students and student from other minority communities like Christians, Sikhs, Buddhists, Jain and Zorastrians (Parsis) have

increased over the years as depicted in figures 45 and 46. Enrolment of Persons with Disability (PWD) has mix trend of growth over the years in all States but no definite trend is visible.

Figure 46. % Enrolment of Muslim and Other Minority Communities
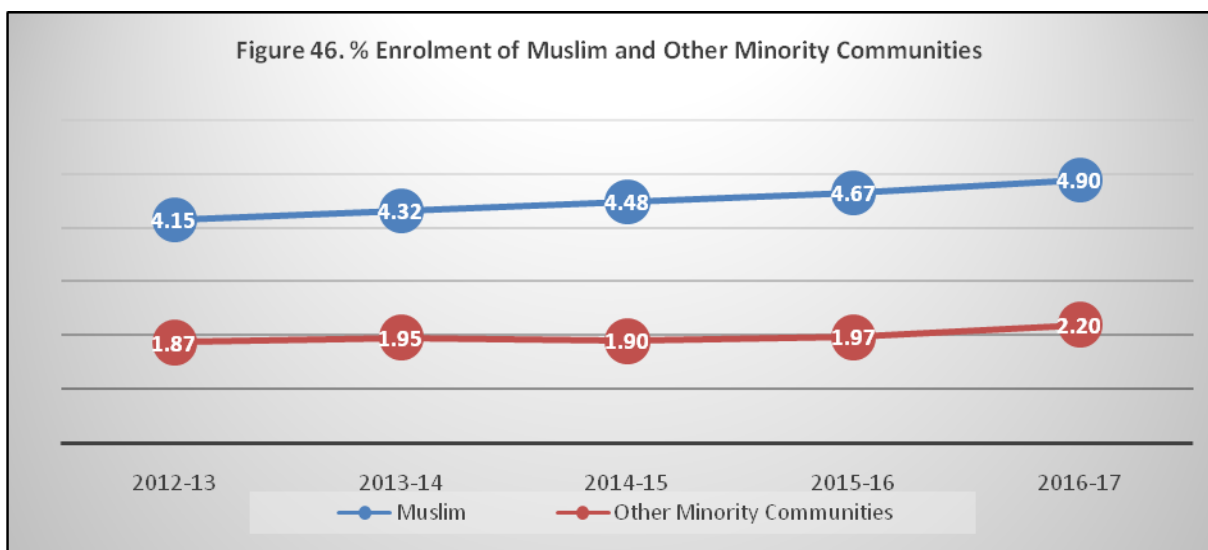

Enrolment in various types of universities including enrolment in its constituent units has also increased over the years. The increase is quite high in State Public Universities and State Open Universities as shown in the figure 47.

4.6 Growth in Number of Teachers

The number of Teachers has grown from 12,47,453 in 2011-12 to 13,65,786 in 2016-17, but the increase is mainly at entry level i.e. Assistant Professor as shown in figure 55. Representation of female teachers at all levels is low except for Demonstrator/ Tutor or equivalent and there is no improvement in the scenario over the years as shown in figure 56.State-wise Post-wise Number of Teachers during last 5 years is shown in Table 51.

4.7 Trend in programme-wise enrolment at various levels

Enrolment in various programmes at Post Graduate and Under Graduate level has increased over the years in regular mode of education except in M.Tech., B.Tech., where it has started showing declining trend recently. In our annual publication we publish actual enrolment, which is based on the response. As response has increased over the years to negate the effect of response, for all these 5 years, programme-wise enrolment has been estimated at all India level. The estimated enrolment through regular mode of education in important programmes at Post Graduate and Under Graduate levels are shown in the two tables given below. In figure 57 enrolments in important programmes at PG level is shown in chart.

Estimation Formula

Estimated enrolment at l^{th} Level for k^{th} Type of college in i^{th} State,

$$E_{ikl} = \sum_{j=1}^{u_i} \frac{N_{ijk}}{n_{ijk}} \sum_{c=1}^{n_{ijk}} e_{ijklc} \text{ , i = 1,2,............, 35}$$

where, e_{ijklc}= Enrolment in c^{th} College at l^{th} Level in k^{th} Type in j^{th} University in i^{th} State,

n_{ijk} = Number of responding colleges of kth Type in j^{th} University in i^{th} State,

N_{ijk} = Total number of colleges of kth Type in j^{th} University in i^{th} State,

u_i = number of University in i^{th} State,

k = 1, 2, 3 & 4 ;   1, 2, 3 & 4 stands for Affiliated college, Constituent college, PG/Off-Campus Centre &Recognised Centre respectively,

For, k=2,3,4,$n_{ijk} = N_{ijk}$

l = 1, 2, ... 8 ;   1, 2, 3, 4, 5, 6, 7 & 8 stands for Ph.D., M.Phil, Post Graduate, Under Graduate, PG Diploma, Diploma, Certificate & Integrated respectively.

Total Estimated enrolment at l^{th} Level

$$E_l = \sum_{i=1}^{35} \sum_{k=1}^{4} E_{ikl}$$

Estimation to be made for those Levels, for which sufficient response has been received. Where, Coefficient of Variation is high and n_{ijk} is small, no estimation is proposed.

When response within University is less than 10%,   ($^{n_{ijk}}/_{N_{ijk}} < 0.10$), the following assumption is made:

$$\frac{1}{n_{ijk}} \sum_{c=1}^{n_{ijk}} e_{ijklc} = \frac{1}{\sum_{j=1}^{u_i} n_{ijk}} \sum_{j=1}^{u_i} \sum_{c=1}^{n_{ijk}} e_{ijklc}$$
